

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

1. The first part of the paper is devoted to a discussion of the role of the state in the development of the economy. It is argued that the state should play a leading role in the development of the economy, particularly in the case of developing countries. The state should create a favorable environment for investment and provide the necessary infrastructure and services. It should also regulate the economy to ensure that it is fair and efficient.

To find the interest of any particular sum for a certain time, multiply the sum by the number of months, take one half of the product, and you will find the right hand figures to be cents—the remainder, on left hand, are dollars, which is the answer. If there are cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions of two next cents, and the remainder in dollars.

An Act to provide for the Registration of the Names
of Electors.

SEC. 1. *BE it enacted by the Senate and House of Representatives in General Assembly convened,* The town clerk and selectmen in the several towns in this State, shall at least ten days before the first Monday in April in each year, make out correct alphabetical lists of all the persons qualified to vote for the several officers to be elected at that time, designating by placing in distinct columns or otherwise, the names of the electors authorised to vote for all said officers, or only a portion of the same, and specifying which officers; and shall at least ten days before said election, cause such list to be posted upon three or more public places in their respective towns.

SEC. 2. The town clerk and selectmen shall be in session at some convenient place for a reasonable time, within four days next preceding the meetings for the objects aforesaid, for the purpose of receiving evidence of the qualifications of persons claiming a right to vote in such elections, and of correcting the list of voters; and such session shall be held for one hour at least on the day of such election, and before the opening of the meeting at the place where said meeting shall be held; and notice of the time and place of holding the said sessions shall be given by the town clerk and selectmen, upon the list posted up as aforesaid. Provided, that whenever an adjourned meeting of the electors shall be held, in pursuance of the law for the choice of one or more representatives of the town in the General Assembly, that on the day of each of such adjourned meetings, there shall be a session of at least one hour previous to the opening of the meeting, of the town clerk and selectmen, for the purposes aforesaid; and such session shall be at the place of holding said meeting.

SEC. 3. If it shall appear to said board that any person whose name is on said list is not a legally qualified elector, it shall be their duty to erase the name of such person from said list; and it shall be the duty of said board to add to said list the name of any person whom they shall find to be a legally qualified elector,

which shall have been omitted in making out the same.

SEC. 4. If any person shall give a false name, or any false answer, to the board of town clerk and selectmen, when in session as provided in this act, he shall forfeit the sum of twenty dollars, to be paid into the State treasury.

SECT. 5. The moderator of any electors' meeting shall receive the votes of all such persons whose names are on the lists of voters as certified by the town clerk and selectmen, and he shall not receive the vote of any person whose name is not on said list; and the name of each elector at the time of voting, shall be checked by the town clerk or one of the selectmen, or by one or more persons appointed by them; and the original list of voters as made out by said board, and the list or lists used on the day of the election, with the marks and checks upon the same, shall be lodged with, and carefully preserved by, the town clerks of the several towns.

SECT. 6. Every legally qualified elector of any town in this State, having resided in the State the time required by law, shall be authorized to vote in any other town in the State for governor, lieutenant governor, secretary, treasurer and comptroller; and any such elector shall be authorized to vote in any town in the congressional district in which he resides, at any election for a member of congress in said district; and any such elector shall be authorized to vote in any town in the county in which he resides, at any election for sheriff for said county. Provided, if such elector offers his vote in any other town than the one in which he may lawfully vote for representatives, he shall produce a certificate from the town clerk of the town in which he shall have been admitted an elector, of such his admission. And said town clerk and selectmen, in addition to the sessions prescribed by this act, shall be in session during the time of voting, for the purpose of registering the names of such legally qualified electors only, as reside in other towns than the one in which they offer to vote; and the certificates required by law to be produced by such electors, shall be placed in the possession of the town clerk, who shall preserve the same.

☞ To find the interest of any particular sum any certain time, multiply the sum by the number months, take one half of the product, and you find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder dollars.

THE CONNECTICUT
FARMERS' GAZETTE,
AND
HORTICULTURAL REPOSITORY.

THIS is a small weekly paper, published in New Haven, particularly for the benefit of those who are engaged in the cultivation of the soil. Its leading object is to collect and circulate facts and information on subjects relating to the management of farms and gardens; the management of crops; the raising of cattle, improvements in agricultural implements, &c. No paper of the kind has ever been published in this State, and the Connecticut Farmer has been entirely dependent on foreign publications for his reading on subjects connected with his more immediate business and interests. The *Gazette* was established more than a year ago, and the publisher has the satisfaction to add, that it has been received with a good degree of favor by the farmers of the State. Its permanency becomes a matter of certainty, and its usefulness is daily on the increase.

Price, \$1 a year, in advance.

Subscriptions and communications thankfully received

There will be five Eclipses this year, in the following order, viz :

I. The first will be of the Sun, January 11th, at 11h. 27m. in the morning invisible to the inhabitants of N. America, by reason of the Moons south latitude.

II. The 2d will be an eclipse of the Moon, Jan. 26th, at 1h. 2m., in the afternoon, consequently invisible to us.

III. The third will be an eclipse of the Sun, July 8th. at 2h. 13m. in the morning—to us invisible. This eclipse will be visible and total in many parts of Europe and Asia.

IV. The fourth will be of the Moon, July 22d, at 6h. 9m. in the morning—to us invisible. The Moon will set a few minutes before the eclipse begins.

V. The fifth will be of the Sun, Dec. 31st, at 2h. 14m. in the afternoon—invisible to us by reason of the Moon's south latitude. This eclipse will be visible in South America, and the adjoining oceans. In lat. $33^{\circ} 18' S.$, and long. $104^{\circ} 21' W.$, it will be central and annular at noon.

The Planet Venus (\diamond) will be morning Star until the 5th of March, then evening Star till the 8th of December, then morning Star again.

IF To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

ELECTORS' MEETINGS

To find the interest of any particular sum for any certain time, multiply the sum by the number of months, take one half of the product, and you will find the two right hand figures to be cents—the remainder, on the left hand, are dollars, which is the answer. If there be cents in the sum, after you have multiplied as above, you will find the two right hand figures to be fractions, the two next cents, and the remainder in dollars.

ELECTORS' MEETINGS
